GENERAL INTRODUCTION:

Atwater)            We have been tasked by the DCSOPS, INSCOM to conduct  
Watt        )        a survey of INSCOM personnel concerning the subject  
                 of parapsychology....whether personnel feel it is  
                 real, fake, or just a phenomena that is not clearly  
                 understood.

I would like to keep this very informal. Do you have  
any objections?

Because of know Soviet involvement in psychical research  
and the fact that any U.S. involvement in this area  
would, of necessity, be classified, I have been instruct-  
ed to inform you that our discussion must be considered  
to be classified at the SECRET NOFORN level. You are  
not to discuss the subject matter of this interview with  
anyone.

Before getting into the discussion, I would like you to  
read the following article(s): . . . . Now,

1. What do you think of the story?
2. What do you think about psychic phenomena and  
people associated with it?
3. Do you know anyone, including yourself, that might  
have had an ESP experience? Can you tell me about it?
- Optional) 4. Do you feel this is an aspect of society that is  
not clearly defined and that research should continue  
to clear up associated mysteries?
- General        5. If used, should psychic power be limited to  
Public)        humanitarian needs or . . . . should the military be  
                 involved?

Religious overtones.

NOTE: Recommend very informal close. Use the above  
questions as guidelines to direct interview/  
'survey.' Each interview should take approximately  
30 minutes. Remind individual of SECRET NOFORN  
classification.
